B E E S

YOUR HOBBY OR BUSINESS... OUR PASSION

Beeline Supplies manufacture and supply quality beekeeping equipment including bee boxes, bee and hive health products and all other equipment and resources you may need to support you in your beekeeping hobby or business.

Our bee boxes are made from Southland and Otago grown New Zealand Pine, milled from renewable plantations, on a sustainable yield basis. The age of the logs is approximately 28 years.

As well, we sell a wide variety of bee-related gifts and honey-based skincare and health products.

All our boxes are made to NZ standard sizes, using kiln dried timber dressed to 21mm thick for strength, insulation and durability. Our handles are 165mm long, 32mm wide and 14mm deep making them easier to pick up, especially if you are wearing gloves.

Our export grade boxes have clear timber on the ends and the sides.

Our commercial grade boxes will have tight knots and other minor imperfections or marks.

All our boxes are assembled with 8g 45mm screws; five per corner for full depth boxes and four per corner for three quarter depth boxes.

Added features for your bee boxes that we are able to provide for an additional cost:

- *Assemble your bee boxes with stainless steel screws*
- *Edge the top and bottom of your assembled boxes prior to paraffin wax dipping*
- *Machine handles into the sides of your bee boxes prior to paraffin wax dipping*
- *Paint your boxes, once they have been dipped.*

*Please
contact us*
